Time to rid Parliament of the Members for Banks

Summary:
Many Senators and Members of Parliament are sitting illegally. This means the laws they have passed are invalid. If managed properly we should be able to see political manipulation that has undermined our sovereignty reversed. The illegitimate politicians could be forced to repay all monies they and their offices have been paid.

Section 44 - The crucial part of our Constitution designed to protect our Sovereignty

We have 76 Senators and 150 Member of Parliament and just about all of them are the Members for banks.

The Constitution may not be perfect but as far as Section 44 goes the intent is clear and BRN is happy to help the up-and-coming High Court case involving Senators Canavan, Ludlam & Waters .... and MP Julia Banks who holds the marginal seat of Chisholm while also being one of the Members for banks.

It doesn't matter if you were born in Australia or not. It doesn't matter where your parents are from. It doesn't even matter if at some point in your life you were a citizen of another country.

The issue is that if you are a Senator or Member of the Australian Parliament you are committed to serving the interests of the people of Australia. You have an allegiance to this nation. You do not serve foreign interests.

On this basis it is very clear that it is not just a handful of politicians that are sitting illegally. The majority of politicians - "left" & "right" - are clearly serving foreign interests. The bulk of past and present politicians have undermined Australia's Sovereignty. The evidence is everywhere. Let's hope the High Court looks at it and uses the current kerfuffle to help bring about genuine reform (very much a long shot folks).

Make no mistake – we have a very much bipartisan and gradual political agenda in play. Globalisation, phony free trade deals, the alphabet soup of chains around ours and most other country's necks – IMF, CFR, FBI, BIS, EU, UN, UK, USA, NSA, CIA.

The result is housing unaffordability; businesses, farms, properties and land all being transferred to foreign interests; and mass privatisation of public assets. All on top of a corrupted system of political donations buying favours against the nation's interests.

This agenda serves the elite. It is in the interests of the corporate sector ... specifically the upper echelons of a corrupt and criminal banking system that seeks to rule over all of us. It is also in elite interests to have a powerful and corrupt government working lockstep with corporate powers to abuse taxes & interest payments. Key elements used to fleece and dis-empower the middle class while increasing the disadvantage and hardship for the precariat.

Debauching our currency, our democracy and our Constitution are all par for the course. Beware politicians bearing Republics - check the fine print.

Our politicians won't know what's hit them at the next election. It will be a wipe out ..... for both major parties.

To save your freedom and our country's Sovereignty it is time to rid Canberra of the Members for banks.

BRN has plans ..... and we aren't afraid to use them.
