Election 2019 - Kick Out The Lambs

Summary:
Wolves in sheep's clothing infest our government. Australia and its people are being robbed. Politicians and the major parties are facilitating the theft of our incomes, freedoms, resources and other assets. Farms, businesses, lives - all being stolen. Election 2019 is our opportunity to force new policies onto the agenda. Whoever wins any election must understand that they serve us ... not the party, not the elite and not themselves.

Wolves In Sheep's Clothing Manipulate Politics, Law & Bureaucracy

For decades the major parties and the interests they serve have seen to it that Australia's role in the world was to be a quarry and tourist destination. Many billions of dollars are transferred out of our country every year. Powerful corporate interests - particularly the finance sector and banks - have been allowed to rob the country and take far more of our GDP than is reasonable. This is the main reason for the pressures too many of us face.

The "economic miracle" is built on exploitation, a pumped up asset bubble and unsustainable debt. We've been framed folks.

The elite don't want most of us to own our own homes. They don't want our country self-sufficient and prospering thanks to our people's hard work and resources. We are to be locked into a global system of control and theft. Politicians and the major parties allow the rip offs to continue and argue about how to ration the crumbs the rulers leave us. The regular tax and spend arguments are not the main game - it's a manufactured diversion.

To end the rat race and reclaim your time, freedom and rights. Three key policies are required: a Sovereign Wealth Fund, a National Bank and a Citizenship Dividend. Bold policies that together serve your interests, your children's interests and your country's interests.

Shorten and Morrison want you distracted by their lies and fantasies. They don't want you to know that you could have a better standard of living with perhaps half the number of paid hours work. That's how much you are being ripped off.

Top class infrastructure, world class education and health facilities - all could be ours without unsustainable debt and unfair taxes. The elite want you in debt, your kids in debt and your country in debt.

Say no to debt, poverty and war. That's where geopolitical machinations are leading the world. It's time for the people to take action. We've always had the power ..... it's time to use it.

See link below for Election 2019 Candidates that are happy to look at new ideas - putting them into Parliament will put real reforms on the table.

Let's make sure whoever wins on the 18th of May understands that they serve us ... not the party, not the elite and not themselves.
