

Morrison & Albanese must give us the truth. COVID-19 crisis demands honest answers.

Summary:

Australia faces a crisis possibly much worse than the Great Depression. We can only survive it by working together with a Prime Minister (and other political leaders) that are brave, honest and intelligent. Now is the time for the nation's leadership to level with us. What is the truth about the way our laws, economy and society are structured?

The following questions demand an honest response from Scott Morrison and Anthony Albanese.

The COVID-19 crisis will see the elite increase our debt and steal more of our country's wealth. The choice boils down to Freedom or Slavery?

Before the burning pitchforks come out Scott Morrison & Anthony Albanese need to answer a few simple questions. NOW..!!

Level with us - we really want to know where we stand

Before the burning pitchforks come out we would love Scott Morrison and Anthony Albanese to answer a few "big picture" questions. Come on guys can you please level with us

now? Australians are being traumatized right now by a once in a hundred years crisis. It will likely be worse than **The Great Depression** of the 30s.

Aussies really want to know:

1. **What are we to you**, the country and the various powers that have great influence on the world's nations and economies?
2. Are we **registered assets**?
3. Are we just considered **units of economic activity**?
4. Are we just vassals existing to **generate consumption and production** for the profit of others?
5. Do we have any **Common Law rights**?
6. Is there any truth to the "conspiracy" that **men and women exist - deceptively - in two forms** with significant legal ramifications? One is considered a corporate entity or "person" - designated by a NAME IN CAPITALS and the other a flesh & blood living being with Common Law rights. What is your understanding of this issue? If you don't know please discuss with someone who does and get back to us.
7. Is it true that a private grouping of powerful and wealthy individuals and families own more than **40% of the assets of the 40,000 companies** making up the world's capital markets?
8. Do the world's governments facilitate these wealthy groupings to hide and control their assets via **complex Trust and Company arrangements often involving various tax havens**?
9. Can you explain to us the history and purpose of the **Bank for International Settlements (BIS)**?
10. Is it true that US Federal Reserve is in effect controlled by four large private companies: **BlackRock, State Street, Vanguard and Fidelity**? Who are the major shareholders in these entities?
11. Do you believe the **media** is genuinely holding the government to account?
12. Many believe that the major news organisations are actually **serving elite interests** ... possibly through close co-operation with major US and British intelligence agencies. This would mean that much of the "news" we are fed is actually propaganda. What do you think?
13. The law appears to be used as **weapon against men and women** rather than as a shield to protect them from abuses of power? Do you think the legal system is functioning in the men and women of Australia's interests?
14. We are involved in a once in a hundred years crisis. People are facing joblessness, bankruptcy and eviction. The government appears to be: shielding the banks; increasing the country's debt to the international banking cartel; diverting money in a reckless and unproductive manner. Why doesn't the government utilise our **sovereign monetary system** - as clearly spelled out in our Constitution - in the way our forefathers had designed?
15. Don't you think it is a pity that our country does not have **Sovereign Wealth fund**?
16. Isn't it a shame that in the early 1970s the Liberal and Labor parties were happy to sign up to the UN's Lima Agreement which assisted in the **destruction of Australia's capacity to continue manufacturing** in Australia? A strong local manufacturing capacity would have been pretty handy right now - don't you think?
17. Have you tried purchasing land and businesses in many of our trading partners' countries? Perhaps if you discovered how difficult that is you would decide that maybe our country's resources

and assets are best held in **Australian hands**.

18. Please explain why the wealthiest and most powerful organisations such as various religious operations and big businesses are exempt from taxation? This is curious for several reasons particularly as many of these entities have for many generations been guilty of all manner of criminal and predatory activities including but not limited to child sex abuse, money laundering and drug trafficking.

19. Is it true that the government has passed legislation that will allow the banks to take their customers' deposits and superannuation during a financial crisis? During a crisis you should be looking after the people's interests. The banking system is being used as a tool to control and impoverish nations. Do not lock us into such a system by banning cash. Do not bail out or bail in this crooked system. Reform it to work for the country and people.

20. It seems the government didn't quite manage to shut down our country's border in time. An island nation was pretty well placed to avoid the bulk of COVID-19 trouble. Do you think you have the ability to put in place **an effective Business Hibernation?** We want the real deal (see links below) - not a Mickey Mouse attempt which would see the crisis last ten long years with untold hardship for our kids and grandkids. The elite are circling - will you let them buy up our land and distressed business assets at dirt cheap prices? Do you recall how John Howard and Peter Costello sold our gold reserves? How about the way Paul Keating sold off our bank - the people's bank ... The Commonwealth Bank?

BRN Comments

Well - do you think we will get some straight answers from ScoMo and Albo? Do you know the answers to some of these questions? Do you want to know? How about picking one or two and sending them to some of our polities. We're sure they will get back to you straight away with an honest answer.

And by the way - it is not just during a crisis that our politicians should be looking after our interests. They should be doing that every single day they serve us. If they can't step up now and do the job properly ... what the hell are we paying them for?

If we don't take a stand now our wealth, freedoms and rights are going to be stolen. Australia will be unrecognizable.

"Any crisis - whether genuine or manufactured - will be used by unscrupulous politicians and interest groups to progress an agenda that is against the best interests of the people" - Brandson's Law
