

Colin Uebergang – victim of Westpac and Uncle Tobys

In the Public Interest

Everything in the following declaration is supported by Court Transcript and documented evidence.

*[According to the Cancer Council Australia, at current rates it is expected 1 in 2 Australians will be diagnosed with cancer by the age of 85. **An estimated 145,000 new cases of cancer will be diagnosed in Australia this year. Aug 7, 2019]***

This case history is hereby placed on the public record in the belief that by exposing the past wrongdoings of nefarious people, justice will prevail and future generations will have a faithful record.

Westpac Bank & Uncle Toby (Now Nestles) colluded in the 1990s to hide a crime of deliberate food contamination - the consequent cover-up continues.

Uncle Tobys, the breakfast food manufacturer, exposed thousands of Australian people to prohibited agricultural chemicals in their morning cereal. One such toxic chemical was **Dieldrin** which has a carcinogenic half-life of five years — **their executives admitted to this criminal act in court and were never prosecuted or sent to jail** — Why? Because Uncle Tobys was collaborating with the financially powerful Westpac Bank, both of which were let off scot-free and without any adverse publicity.

Uncle Tobys was never punished and who knows how many thousands in Australia have been inflicted with internal organ cancer, with many of their victims suffering and prematurely dying of this man-made intentional toxic food contaminant.

Westpac Bank was complicit with this contamination as the grain involved came from farms they illicitly seized while under the incompetent administration of their illegally appointed receivers. Westpac conspired with Uncle Tobys to further destroy the life of the dispossessed farmer with charges of **intent to defraud** - charges unanimously proved false in a Court of Appeal.

For those who are suffering terminal cancer illness and may require documented court transcript evidence to assist family or friends in seeking justice from the effect of the potentially harmful food contamination of Uncle Tobys (now owned by Nestles) they may wish to contact ubergang@bigpond.net.au for his well-documented evidence.

Westpac Bank has paid lip service to the Banking Royal Commission requirements, but their Settlement Team continually stalled and then rejected with no reason the well-documented evidence of their culpability in a monstrous injustice to Colin Uebergang and his family. Justice delayed is justice denied. Colin is now in his late 80s but in the event of his passing, the evidence of the crimes by Westpac Bank and Uncle Tobys (Nestles) has been placed in the hands of a number of trusted individuals who have agreed to respond to requests by those who may seek the evidence of deliberate food contamination by this unconscionable food manufacturer and its banker associate.
