

THE STING

THE TRUE STORY OF TONY & DOROTHY RIGG

33 YEARS AND STILL FIGHTING THE
COMMONWEALTH BANK OF AUSTRALIA'S
CRIMINAL ACTIVITY.

PLEASE SEARCH - *Tony Rigg vs Commonwealth Bank* - and know the truth.

Their story of HORRIFIC FRAUD by the COMMONWEALTH BANK STAFF, LAWYERS, RECEIVERS, REAL ESTATE AGENTS and others. The RIGG's properties were sold by INSIDER TRADING at way below market value; the evidence speaks for itself. They were charged TROUBLESOME INTEREST - up to 25.5% interest, SHADOW LEDGERS up to 25.5% interest and more interest.

The website has three videos, over 120 sets of documents and the story of heartbreak and tragedy suffered by the Rigg family. The Riggs were never in default, they were engineered into a position so the bank staff could destroy them.

The Rigg's business was in Nowra, a region with high unemployment. The cost to the community has been huge. The Rigg's company would have employed 200 to 300 directly and indirectly.

With support from AUSTRADE, LYSAGHTS, BHP and others the company had inquiries from companies in 33 countries. The company had built a house in Singapore as a demonstration.

All authorities have turned a blind eye, including ASIC, ICAC, ACCC, OMBUDSMAN, APRA, STATE & FEDERAL POLICE and POLITICIANS.

The Police told me our case is a civil matter. If bank staff rob a bank they go to prison, if bank staff rob the people it is a "CIVIL MATTER."
